

THE **SECRET** OF RESTORING YOUTHFUL SKIN

SECRET^{RF} restores youthful radiance and fullness to your skin. It is one of the most technologically advanced forms of skin rejuvenation therapy available.

SECRET^{RF}'s radiofrequency energy and minimally invasive micro-needles deliver the energy very precisely into the deeper layers of skin, creating heat and activating a process called fractionated denaturing.

This stimulates the production of new collagen, the building blocks of healthy, youthful skin. It also tightens elastin fibres and causes an increase in lymphatic flow, an important part of your body's cleansing process.

A wide range of skin issues can be treated with minimal downtime. **SECRET^{RF}** is ideal for non-surgical skin tightening, wrinkle and pore size reduction, acne and acne scar treatment, as well as axillary hyperhidrosis (excessive underarm sweating).

BUILDING SKIN FITNESS

We all know that good diet and physical fitness are important contributors to a healthy skin as well as to our overall health. But ageing skin needs further help. **SECRET^{RF}** is an ideal skin rejuvenation treatment, helping to restore firmer, more youthful skin.

SECRET^{RF} boosts the production of the important structural components of the dermis, collagen and elastin, which provide strength, elasticity and fullness to the surface of the skin. This initiates a process of continuous improvement over several months.

New collagen and elastin mean toned and tightened skin and a fresher, more glowing and youthful appearance, particularly in areas prone to wrinkling and sagging, such as around the eyes, mouth, cheeks and neck.
