

## FREQUENTLY ASKED QUESTIONS

### HOW DO LASER GENESIS TREATMENTS FEEL?

Many patients describe Pastelle Laser Genesis treatments as relaxing and therapeutic. The surface of your skin will feel warm as the laser handpiece moves about a centimetre above the surface of your skin. This is a 15-20 minute treatment that has virtually no discomfort.

### CAN THIS TREATMENT BE COMBINED WITH OTHER FORMS OF THERAPY?

Yes! Pastelle Laser Genesis often teams up with Laser Toning and Carbon Peel to form what is commonly called the China Doll Laser Facial to give your skin a vibrant, healthy glow.

### HOW MANY TREATMENTS WILL I NEED?

The condition of your skin will dictate how many treatments are ideal for you. Generally we recommend 4-8 treatments about 2 weeks apart.

### HOW LONG WILL THE RESULTS LAST?

You will see improvement within a few days, but your skin will continue to renew itself and will actually look even better a month or so after your last treatment. For this reason, repeat treatments should be spaced several weeks apart.

For best ongoing results, you should always protect your skin from direct sun exposure. Always cover up and use a good SPF sunblock when out in the sun.

## GIVE YOURSELF THE SKIN YOU DESERVE WITH PASTELLE

### Q-SWITCHED ND:YAG LASER FOR NO DOWNTIME LASER FACIAL

- › Suits all skin types
- › No downtime
- › Virtually no discomfort
- › Continuous improvement
- › No risk of infection
- › Low risk of side effects
- › Fast and comfortable laser

# GENESIS LASER FACIAL

 pastelle

RESTORE  
YOUR VIBRANT  
HEALTHY SKIN  
QUICKLY &  
COMFORTABLY

# RESTORE SMOOTH SKIN TONE

Pastelle Laser Genesis uses advances in light therapy to restore your vibrant, youthful skin quality. It safely, discretely and effectively treats fine line wrinkles, large pores, uneven skin texture, diffuse redness and scars.

A longer pulse width delivers more heat directly where it's needed—deep into your skin's dermis layer where it stimulates your own body's regenerative ability.

As a result, the tissues produce more collagen—the building blocks of youthful healthy skin. The benefits continue to accumulate after each treatment, contributing to a long-lasting improvement in skin quality.

Over time you will experience tighter pores, smoother skin texture, reduced redness, and a more even skin tone.

You can combine Pastelle Laser Genesis with other laser treatments that do not break the skin or cause excessive heat and redness, such as Laser Toning and Carbon Peel. These three make up the famous China Doll Facial, renowned for helping to produce a radiant, glowing complexion!

## STEP 1

Your 15-20 minute treatment delivers controlled heat directly to your skin where collagen growth is stimulated. The treatment is easily tolerated, with virtually no discomfort.

## STEP 2

The dermis begins producing new collagen, which gradually clears the skin's imperfections.

## STEP 3

The result is a more even, glowing skin tone, smoothing of superficial lines and wrinkles: a glowing, youthful character is restored.
