

The New MF2

Slimmer · Faster · Upgraded

Addressing All Wrinkles

For Your Satisfaction

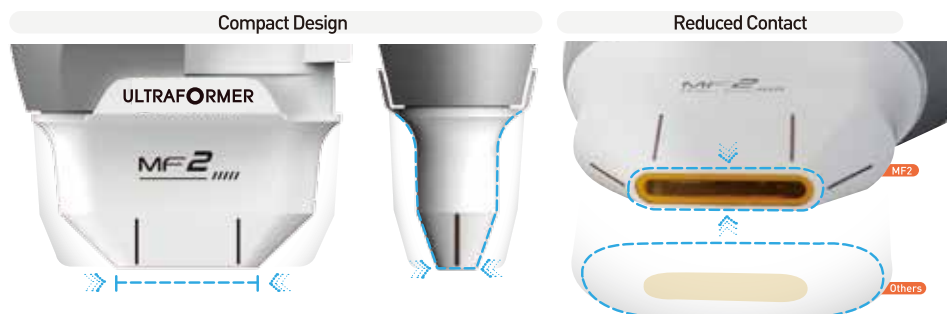

MF2 Focal Points

The sensitive and shallow regions around the eye, the mouth and the forehead are treatable with ease due to the narrow focus and precision provided by the newly developed MF2 cartridge.

Transforming The Reforming Experience

The new and improved cartridge's slim design provides substantial comfort due to an increased line of sight when applying treatment to sensitive areas.

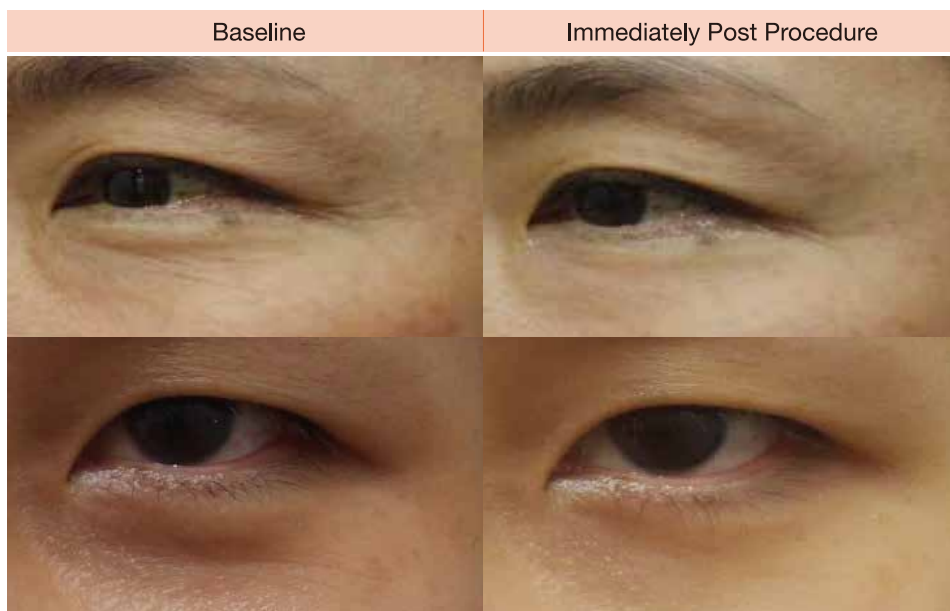

The MF2 Advantage

- Physicians**
- Easier access to sensitive regions
 - 20% faster shot speed
 - Economical running cost

- Patients**
- Enhanced results
 - No limitations on treatment regions
 - Faster treatment procedures
