

ULTRAFORMER III

Advanced Non-Surgical Skin Tightening & Body Contouring

New Paradigm

NEW MULTI-FUNCTIONAL
ULTRAFORMER CARTRIDGES

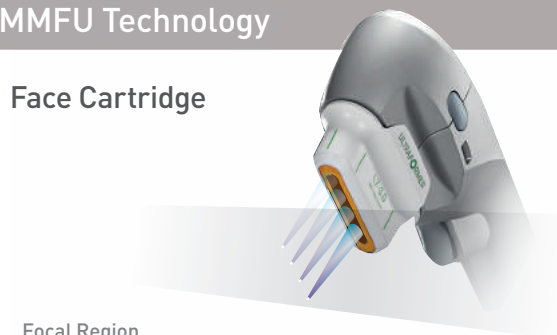

- Optimization of cartridge size for Body Contouring treatment
- Peak power improvement
- Selective body treatment by various cartridges
- Reduction of pain level
- Continuous use without rest

The World First MMFU (Micro & Macro Focused Ultrasound) Technology beyond HIFU for Skin Tightening & Body Contouring

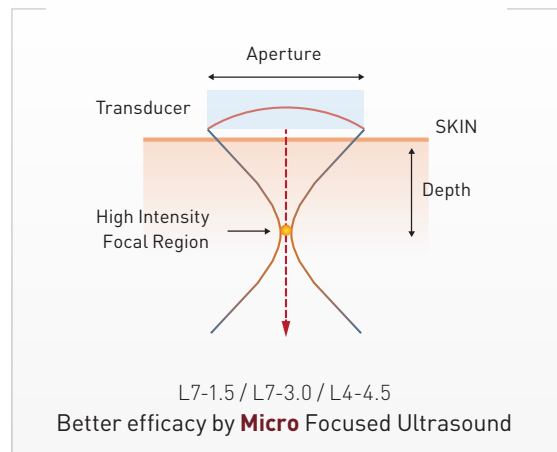

New MF (Multi-functional) cartridges assisted by MMFU (Micro & Macro Focused Ultrasound) technology are specially designed for body treatment to combine with previous 1.5, 3.0 and 4.5mm cartridges in order to enhance its treatment effect. Current 4Mhz and 7Mhz transducers create Micro coagulation into dermis and SMAS while this new 2Mhz transducers deliver Macro energy into subcutaneous fat to selectively remove fat cells. This innovative transducers that generates 8 times higher ultrasound energy maximize customer's satisfaction and reduce treatment time.

Applications

- Wide range of applications

MF6

- Arm
- Axillar
- Abdomen
- Flank
- Thigh
- Leg
- Ankle

MF9

- Abdomen
- Flank
- Thigh
- Leg

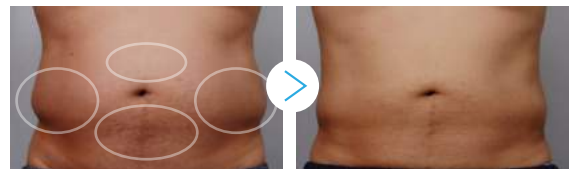

MF13

- Abdomen
- Thigh

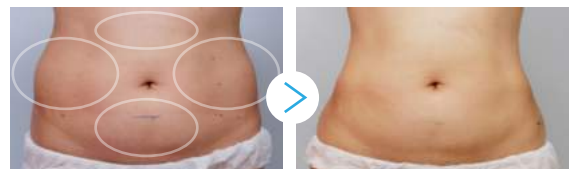

Clinical Results

- Provide the results your patients want
