KEEP UP TO SPEED AT THE CRYOMED ACADEMY

STAY ABREAST OF THE LATEST SCIENTIFIC RESEARCH AND LEARN NEW TIPS, TRICKS AND TECHNIQUES FOR OPTIMAL DEVICE USAGE AT THE CRYOMED ACADEMY.

On-going education plays a vital role in building and maintaining a continuously successful practice. Cryomed offers a practical training program to empower participants to drive their Cryomed device to the highest level of patient care and treatment satisfaction.

Their objective is to improve the safety and efficacy of all cosmetic intervention services provided by Cryomed customers such as IPL, cryolipolysis, skin needling, macro and micro focused ultrasound, diode lasers, CO2 lasers, and Q-Switched lasers. Their training also ensures best practice in the cosmetic

medicine and beauty industry in a quality-learning environment.

The Cryomed Academy allows participants to stay abreast of the latest scientific research as well learn the best tips, tricks and techniques for optimal device usage. The Academy will feature industry experts and KOLs who will share their knowledge and experience for your patients optimum safety and benefit. Cryomed ensures users receive in-clinic, practical training on their devices for effective outcomes for their patients.

Given the rapid technological advances, there is a strong need for formal training to further qualify professionals specifically in the field of cosmetic invention. Cryomed provides the training tools to ensure that all your staff is up to speed, and ready to begin work, as soon as possible. Cryomed take extra steps to ensure that its technologies solutions offer the highest possible standards and protection for your patients and the highest return on your investment.

To take part in one of the Academy days or attend one of the Laser Safety Courses register online at www.cryomed.com.au

The Cryomed Academy also offers clients a Laser Safety Officer course, which is run separately from their device training. **AMP**
