

AQUAPURE

HYDRADERMABRASION

**POWERFUL
DEEP-CLEANING
FACIAL** FOR
HYDRATED AND
GLOWING SKIN

What is AQUAPURE facial?

AQUAPURE is a non-invasive hydro-facial treatment that delivers clearer, more hydrated, refreshed and younger-looking skin.

AQUAPURE is ideal for all skin types and targets uneven skin tone, oily/congested pores, dehydrated and dry skin, fine lines, and wrinkles.

The treatment uses three different solutions: for exfoliation, sebum control and collagen production. This three-step treatment cleans, refreshes and adds moisture and volume to the skin.
