

CODE-X

MICRO NEEDLING
TECHNOLOGY

INTRODUCING CODE-X

Micro Needling technology from Korea.

The wireless CODE-X boasts a drag-free system, medical-grade stainless steel needles and consistent battery strength no matter what level of charge.

Weighing in at just 65g, CODE-X is lighter than an iPhone!

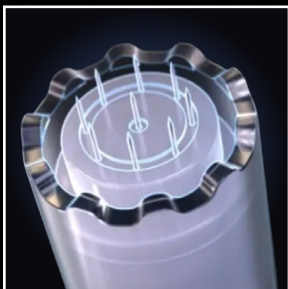

Micro Needling is a minimally invasive cosmetic procedure that uses tiny, sterile needles to create controlled micro-injuries on the skin's surface.

These micro-injuries stimulate the body's natural healing process, promoting collagen and elastin production.

MICRO NEEDLING

Experience Precision, Efficiency & Comfort

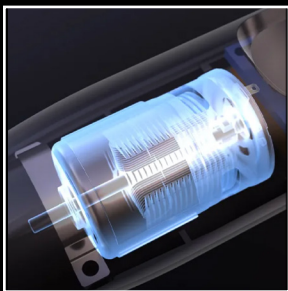

WAVE CROWN DESIGN

Easy to glide and allows the product to flow while treating providing even treatment outcomes and no product buildup.

CONSISTENT STRENGTH

Regardless of battery percentage, CODE-X provides consistent power throughout every treatment with a fast charge of just 1.5 hours.

LIGHTWEIGHT DESIGN

Only 65 grams for practitioner comfort. CODE-X boasts an ultra-quiet operation of only 57 decibels for maximum patient comfort.
