

GLYCOPEEL MASK

EXFOLIATES – SMOOTHES - BRIGHTENS

Retail size : Jar 50mL

pH = 4,9

INDICATIONS

Imperfections, Fines lines and wrinkles, Dull complexion
Instant radiance, renewed complexion.
Ideal before a professional chemical peel

ACTION

Designed to combat dull complexions, fine lines and blemishes, this revolutionary resurfacing mask restores tone & radiance to reveal younger-looking skin. It combines highly concentrated Glycolic acid (15%), which delivers powerful exfoliation, with Phytic acid (2%) for a flawlessly even complexion. A gentle soothing complex also ensures comfort for sensitive skin.

TEXTURE

White thick clay-based cream
Fragrance-free

USE & CONTENTS

FOR AN INSTANT GLOW EFFECT

Apply a thick layer to the face. Leave for 5 to 10 minutes. Rinse off with warm water. Use once or twice a week. Ideal to prepare the skin for peels and facials. Use in conjunction with sunscreen.

TO PREPARE THE SKIN BEFORE A PROFESSIONAL PEEL

Apply the mask twice a week for a month. This will initiate the exfoliation process and enhance results.

ACTIVE INGREDIENTS

GLYCOLIC ACID 15%
Renowned AHA fruit acid with powerful exfoliating and lightening properties. Visible improvement in skin texture and radiance, smoothing of wrinkles and fine lines.

PHYTIC ACID 2%
Renowned melanin production inhibitor. Ensures complexion uniformity.

SOOTHING COMPLEX
PROVITAMIN B5 + ALLANTOIN + POLYSACCHARIDE

CLINICAL RESULTS
