

HYALURONIC YOUTH MASK

SOOTHES – HYDRATES - PLUMPS

INDICATIONS

Fine lines, Hydration, Skin texture

All skin types

Ideal after aesthetic procedure

ACTION

This soothing biocellulose mask is ideal after an aesthetic procedure. It visibly smoothes dehydration wrinkles and plumps the skin. Renowned for its soothing and restorative properties, Aloe Vera nourishes the skin and restores comfort.

TEXTURE

Biocellulose mask

USE & CONTENTS

Open the sachet and unfold the mask. Remove the square white protective gauze, place this revealed side onto the face, starting at the top of the face. Then gently peel off the blue protective layer. Leave on for 15-20 minutes. Remove and massage excess serum with the fingertips. Do not rinse. Repeat the application once or twice a week.

ACTIVE INGREDIENTS

HYALURONIC ACID

Renowned for its hydrating properties, it visibly smoothes the appearance of dehydration wrinkles and plumps the skin.

COLLAGEN

Responsible for skin elasticity, it helps to improve its appearance

ALOE VERA

Nourishes the skin and restores comfort.
