CYNO\SURE<sup>®</sup>  
LUTRONIC<sup>®</sup>

Exclusive to Cryomed Aesthetics in ANZ

\*Through soft tissue coagulation.

© 2025 Cynosure, LLC. All rights reserved. Cynosure is a registered trademark of Cynosure, LLC. Potenza is a trademark of Jeisys Medical, Inc. Cynosure, LLC owns exclusive rights to photography. Use of photography without written permission of Cynosure is prohibited. Model for illustrative purposes only.

The Potenza is intended for use in dermatologic and general surgical procedures for electrocoagulation and hemostasis. Potential side effects include temporary redness, temporary tingling, and burning sensation while receiving treatment. Like all medical procedures, not all patients are suitable for the treatment. Talk to your medical provider about the risks and benefits of this procedure. A qualified practitioner is solely responsible for evaluating each subject's suitability to undergo treatment and for informing those being treated about any risks involved with the treatment, pre-and postoperative care, and any other relevant information. Individual results may vary and are not guaranteed. PRD-1740

POTENZA<sup>™</sup>

Tighter,  
Firmer Skin\*

*All skin types, anywhere  
on the body*

Nothing from a jar  
*can make your skin  
act like this*

Potenza RF Microneedling performs like no topical (or even filler) ever could, actually stimulating your body's collagen and elastin levels to treat the signs of aging.

The Potenza RF microneedling treatment uses ultrafine needles and radiofrequency (RF) energy to penetrate the top layer of the skin and trigger the body's natural healing process to regenerate new collagen and elastin. Unlike other skin revitalization treatments, these treatments can be performed on all skin types, anywhere on the body and anytime of the year.

- Stimulates new collagen production, giving you tighter-looking\* skin
- Targets blemishes for a smoother, more radiant complexion
- Drives topicals deeper in the skin compared to traditional microneedling

## Frequently Asked Questions

### Is this treatment right for me?

The Potenza RF microneedling treatment can treat a wide variety of skin concerns on the face and body. Talk to your provider to see if this treatment is right for you.

### What is the benefit of microneedling treatments that use RF energy?

Using RF energy will trigger your body's natural response to create an increased level of collagen and elastin production, resulting in an enhanced skin revitalization treatment versus microneedling alone.

### What can I expect from the treatment?

Treatment times may vary, however most treatments can be performed in 45 minutes or less. Potenza treatments are well-tolerated, with minimal reported side effects, such as pinpoint bleeding, swelling, redness, or irritation. As pain tolerance varies from patient to patient, numbing cream may be offered by your physician to make the treatment more tolerable.
