

LOVE A PROVEN PERFORMER FOR SKIN REVITALISATION?

PicoSure is the world's number 1 picosecond aesthetic laser for skin revitalisation on all skin types.

CYNOSURE
PicoSure[®]
LOVE LOOKING GOOD[™]

PicoSure's optimal 755nm wavelength and FOCUS Lens Array stimulates the natural cell signalling processes to effectively treat pigmented lesions, acne scars and wrinkles.

- Uniquely revitalises skin through the creation of Laser Induced Optical Breakdowns (LIOBs), which increases collagen and elastin resulting in brighter, healthier, younger-looking skin
- Largest installed picosecond technology
- Minimal to no redness evident with 755nm compared to 532nm/1064nm at therapeutic fluences
- Most published peer-reviewed articles and abstracts
- FDA cleared and TGA listed
- Over 500,000+ patients treated.

**YOU'LL LOVE A SAFER AND MORE
EFFICIENT APPROACH TO SKIN
REVITALISATION IN YOUR PRACTICE**
