## NON-ABLATIVE RESURFACING AND TIGHTENING

Secret<sup>RF</sup> DUO

FACE AND BODY  
REJUVENATION

## CUSTOMISED DELIVERY, PREDICTABLE OUTCOMES

### HOW DOES SECRET<sup>RF</sup> DUO WORK?

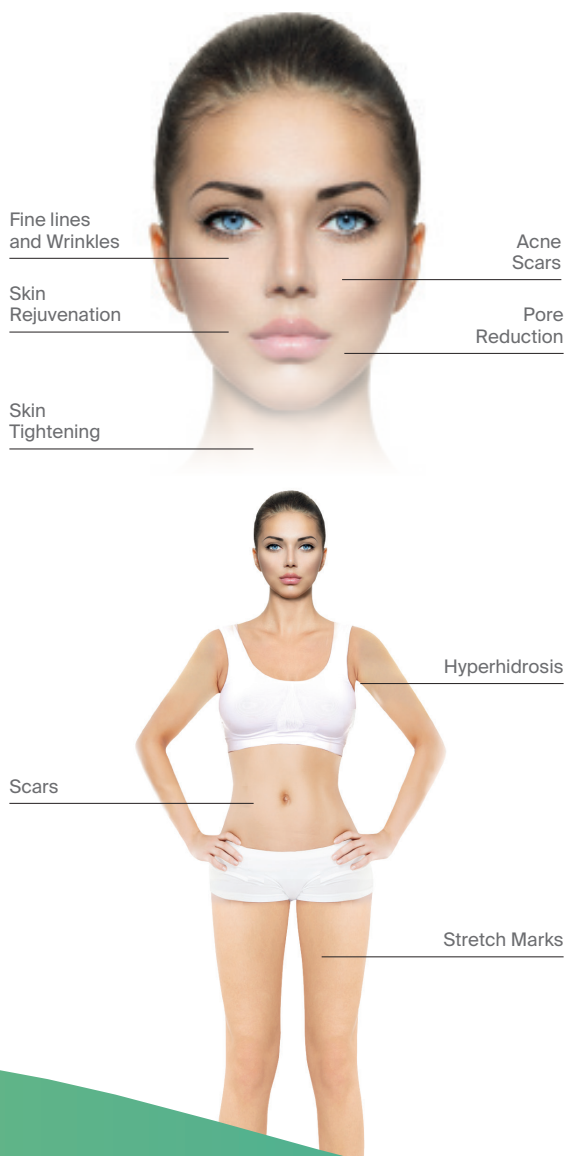

Secret<sup>RF</sup> Duo uses Radiofrequency (RF), minimally invasive microneedles and a 1540nm erbium glass resurfacing laser for skin resurfacing that delivers precise energy into the deeper layers of the skin, as a result creating heat and activating a process called Fractionated Denaturing – breakdown of skin cells.

These two technologies can be used in combination or individually, for more tailored treatments.

Secret<sup>RF</sup> DUO's RF microneedling function provides deeper coagulation, protein denaturation and volumetric heating for deeper skin remodelling. The non-ablative nature of Secret<sup>RF</sup> DUO's erbium glass laser delivers multiple beams, seen as columns of laser energy, into the dermis to induce heat and dermal collagen remodelling.

This new combined non-ablative fractional resurfacing technique delivers an amplified synergy that results in a much greater skin remodelling – with very minimal downtime and side effects.

## WHAT AREAS OF THE BODY CAN SECRET<sup>RF</sup> DUO RF TREAT?

## FREQUENTLY ASKED QUESTIONS

### What to expect during the treatment?

A topical anaesthetic will be applied prior to your treatment, making the treatment more tolerable. During the treatment, you will feel a slight warmth over the area.

### How long does the treatment take?

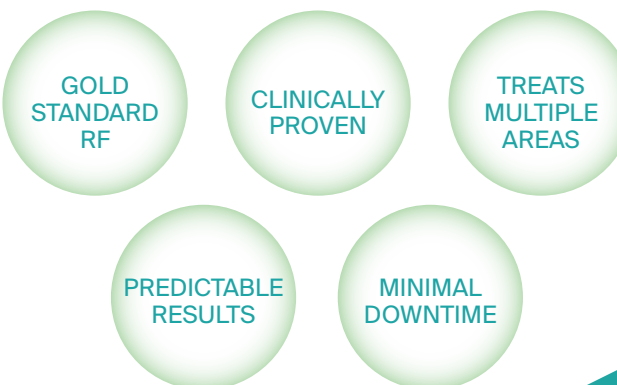

Depending on which areas are being treated, treatments can typically take between 20-40 minutes.

### What to expect after the treatment?

You may experience some mild redness or swelling after the treatment for 3-4 hours, but this will subside. When in combination with the laser, expect 24-36 hours downtime.

### How many treatments will I need?

This varies from patient to patient, but you will notice visible results after just 1 treatment. It is recommended to achieve superior results to have between 3-5 treatments, 4 weeks apart.\*

\* Individual results may vary.
