BUILD MUSCLE, BURN FAT

TESLAFormer™

SHAPE YOUR BODY

CUSTOMISED NON-INVASIVE TREATMENTS TO MEET YOUR DESIRED GOALS

How does TeslaFormer work?

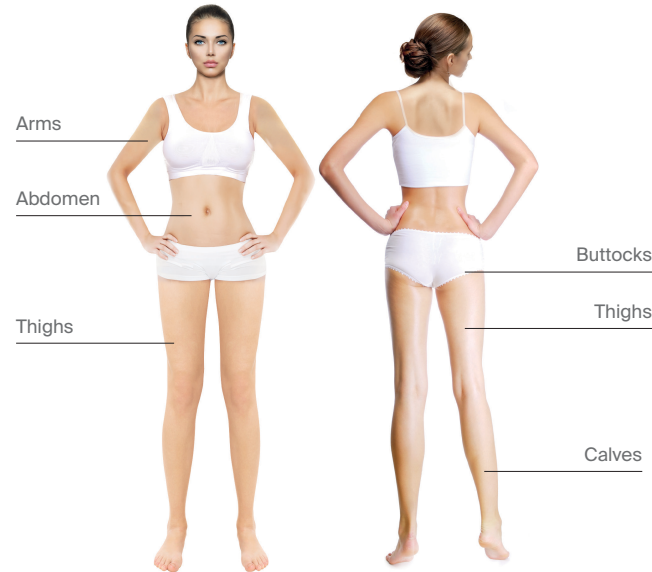

TESLAFormer is a device that is used for muscle strengthening on areas of the abdomen, thighs and buttocks using Functional Magnetic Stimulation (FMS). By stimulating the muscles, inducing supermaximal contractions to build muscle cells quicker than voluntary muscle contractions, experienced during traditional strength training.

Accompanied by a rapid metabolic reaction in the fat cells – working to strengthen and rebuild the muscle – while also reducing fat. The supramaximal contractions trigger the release of free fatty acids to break down localised fat deposits while also improving muscle-tone and strength.

The TESLAFormer paddle fits closely against the targeted area, such as the abdomen, thighs and buttocks, producing magnetic waves that cause your muscles to contract throughout the treatment.

TESLAFormer is a great option for patients who want to look fit and healthy, not just reduce excess fat – no preparation is required pre-treatment.

WHAT AREAS OF THE BODY CAN TESLAFORMER TREAT?

FREQUENTLY ASKED QUESTIONS

Who is the ideal candidate?

TESLAFormer uses Functional Magnetic Stimulation (FMS) to stimulate muscle contraction. Treatments are ideal for patients who lead active lifestyles and maintain a healthy diet, who would like to see an improved physique.

What to expect during the treatment?

During the treatment you will feel waves of magnetic waves, that feel like vibrating pulses – causing your muscles to contract during the treatment. The contracting muscle severity will depend on the settings and will vary with individuals.

How long does the treatment take?

A TESLAFormer treatment takes just 30 minutes, requiring no downtime or preparation – you can resume your daily activities straight after a treatment.

How many treatments will I need?

Visible results can be seen after 3 treatment sessions per week, a course of 6+ treatments are recommended for ultimate results. Treatments can be ongoing, dependant on the results your wanting to achieve.

* Individual results may vary.
