

Frequently Asked Questions

Am I a candidate for VOLNEWMER treatment?

VOLNEWMER offers a broad range of treatment options that are suitable for anyone concerned about loss of skin elasticity, fine lines and wrinkles, loss of volume, laxity and skin that has lost firmness. Talk to your VOLNEWMER practitioner about an ideal treatment program to address your concerns.

When will I notice results?

Most patients will notice visible improvements immediately after their first treatment however greater improvements will be noticed 3-4 weeks post treatment as the collagen regeneration process continues. Skin will continue to improve for up to six months post treatment. Clinical results have shown peak improvement 2-3 months post treatment.

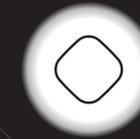

How long do the results last?

VOLNEWMER treatments in combination with an at-home skin care regime will see results lasting around 6 months. We recommend that a maintenance program is discussed with your practitioner.

Is the treatment painful and does it have any downtime?

VOLNEWMER innovation includes, a unique and patented tip along with continuous water cooling for unparalleled comfort. Most patients find the treatment comfortable, with minimal to no downtime post treatment, allowing you to return to your normal activities immediately post treatment.

CLASSYS

Discover VOLNEWMER?

Unlock your potential with VOLNEWMER, the most innovative, cutting-edge and non-invasive treatment for advanced skin toning, tightening, lifting and volumising.

Using the most Monopolar Radio Frequency (RF) technology, VOLNEWMER delivers outstanding results with every treatment. Through the delivery of RF energy into the skin, VOLNEWMER stimulates cells to produce collagen as well as tightening, lifting, contouring to reveal a fresher, younger, more volumised appearance.

This advanced aesthetic treatment is suitable for anyone wanting to improve overall skin tone and texture, as well as for those who want to increase skin firmness and volume while redefining contours and smoothing fine lines and wrinkles. This treatment will also reduce the appearance of pore size leaving skin smoother and firmer.

VOLNEWMER is a premium treatment that can be used to treat the face, neck and body for skin toning and tightening. Unlike other RF technologies, VOLNEWMER treatments are fast and comfortable with no down-time.

Using unique, curved-edge, gold-plated patented tips that distribute the energy evenly during treatment, combined with state-of-the-art continuous water-cooling and tip vibration, VOLNEWMER treatment are unparalleled when it comes for patient comfort.

Results can be seen immediately following treatment, with even greater results taking effect between 4- and 10-weeks post-treatment.

Book your VOLNEWMER consultation to discuss if this treatment is suitable for you and your skin needs.
