

FREQUENTLY ASKED QUESTIONS

HOW DOES IPL-SQ ACNE PEEL WORK?

Acne originates in the dermis layer of your skin, where the sebaceous glands produce too much sebum (oil), clogging the pores and causing inflammation that results in acne. IPL-Sq's true square pulse delivers energy efficiently into the skin, unplugging pores, shrinking the sebaceous glands, gently removing the topmost layer of dead skin cells and stimulating new skin growth.

HOW MANY TREATMENTS WILL I NEED?

Your general skin health will start to improve from the first treatment. Sebum levels and the number of acne pimples will start to reduce. Typically, three to four treatments spaced two to three weeks apart achieves dramatic results.

WHAT RESULTS CAN I EXPECT?

Your skin type and the severity of your acne will determine the degree of improvement in your condition. Most patients see some improvement after the first treatment. Visible acne should be reduced, and you may also notice an improvement in general skin tone and texture. IPL-Sq treatment can also help shrink large pores and reduce the appearance of some acne scars.

HOW LONG WILL THE RESULTS LAST?

While IPL-Sq is extremely effective and long lasting, like other light-based treatments its results may not be permanent. To maintain the results, both on the surface and in the deeper layers of your skin, follow up treatments approximately every 3-6 months are recommended. You will be given instructions to help maintain and maximise the benefits of your treatment.

ACNE PEEL WITH IPL-SQ

TRUE SQUARE PULSE IPL SYSTEM

- Reduces all types of acne
- Controls oily skin
- Shrinks pore size
- Safe for inflamed acne
- Reduces redness from acne marks
- No medication necessary
- Reduced recurrence and inflammation

THE CLEAR
WINNER AGAINST
ACNE

**PROVEN ACNE
TREATMENT**
THAT DELIVERS
DRAMATIC AND
LASTING RESULTS

023CV1

ACNE is an ongoing problem for 85% of all teenagers. More than a third of adults also suffer from recurring and persistent acne. The IPL-Sq offers a reliable and lasting solution to all types of acne.

THE IPL-SQ TRUE SQUARE PULSE IPL SYSTEM

RESULTS YOU CAN
SEE AND FEEL

STEP 1

The skin is cleaned and a clear coupling gel will be applied to the treatment area.

STEP 2

Light energy is delivered to the skin with the most advanced square-pulse technology. This helps to reduce inflammation and stimulates skin cell regeneration.

STEP 3

IPL-Sq treatment destroys bacteria, unplugs and shrinks pores, and stimulates new skin growth.

Unlike ordinary IPL treatments, IPL-Sq treatment is fast and comfortable - with no downtime. You can return to your normal activities immediately after treatment, with predictable and dramatic results.

The IPL-Sq treatment offers a reliable and long-lasting solution to stubborn and persistent acne.
