

POST-TREATMENT CARE

After Secret RF treatment, the treated area(s) may feel warm, tingly, itchy or slightly sensitive for up to 48 hours.

Note: The length of redness or sensitivity varies from patient to patient and depending on the aggressiveness of the treatment.

The following post-treatment care should be followed to achieve the best results from Secret RF treatments.

- Avoid cleansing the treated area on the day of the treatment. Start on Day 2.
- Cleanse the skin with cold water and dab or pat lightly with a towel.
- Use the post-procedure cream 3 times a day for the first 3 days followed by daily for the next 4 days.
- Avoid hot showers, baths, saunas for 24 hours.
- Avoid scratching or picking on the treated area.
- Refrain from applying any lotions on the treated area for 24 hours.
- Apply sun protection lotion every day and avoid sunbathing and direct sun exposure.
- Avoid active ingredients 2-5 days before and 2-5 days after the treatment.
