SKIN PERFUSION, A PROFESSIONAL ANTI-AGE CARE RANGE OFFERING PROTOCOLS WORKING IN SYNERGISM WITH AESTHETIC PROCEDURES

As one of the French leaders in aesthetic medicine for over thirty years with, at its core, unique experience in skin and anti-ageing, Laboratoires FILLMED developed the SKIN PERFUSION range in 2015. SKIN PERFUSION is an anti-age care range offering protocols working in synergism with aesthetic procedures.

The SKIN PERFUSION range requires the recommendation of a professional for a personalised care programme and is available at L'Institut FILLMED, 20 rue de Lisbonne 75008 Paris and in 40 spas in France. The range is sold by aesthetic doctors and in medical spas in other countries.

INNOVATION BOOSTERS HIGH CONCENTRATION HIGH DEMANDS HIGHLY EFFECTIVE.

The SKIN PERFUSION CORRECTOR BOOSTERS are a range of five new generation targeted serum. They are ultra-innovative and concentrated, and each serum contains a selection of ingredients renowned to be effective in targeting and correcting every problem related to ageing of the skin. They are formulated to meet maximum tolerability requirements.

0% parabens, silicones or fragrance.

Hyaluronic acid

Glycolic acid

[Peptides]

[Retinol]

[Salicylic acid]

INNOVATION FORMULATION & PACKAGING

RECOGNISED WITH PROVEN EFFICACY

Retinol – Glycolic acid –
Hyaluronic acid – Salicylic acid –
Resveratrol – Peptides.

OPTIMISED CONCENTRATION

PRESERVATION OF INGREDIENTS

Two separate phases isolating
the active ingredients.

MIX'NBOOST
TECHNOLOGY

MIX'NBOOST TECHNOLOGICAL INNOVATION

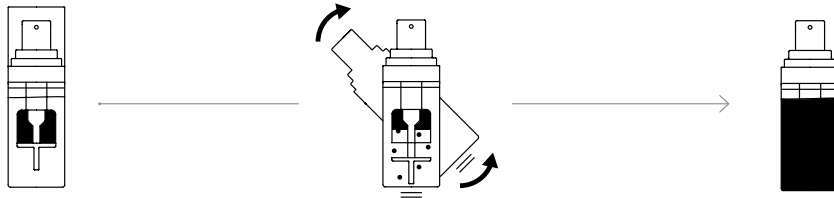

Dual compartment system prepared
at the time of use to maximise
ingredient stability.
Delivers a fresh formula
by pump activation.

THE SECRET OF CORRECTOR BOOSTERS

THE MIX'NBOOST TECHNOLOGY TO GUARANTEE INGREDIENT ULTRA-STABILITY

An integral activation system inside each bottle, isolates the ingredients into two separate phases, each contained in a separate compartment. The two phases are only mixed at the last minute when the BOOSTER CORRECTOR is activated by a single click when it is used for the first time, rather like freshly pressed fruit juice which preserves all of its vitamins and nutrients.

METHOD OF USE FOR A FRESH FORMULA

Activate the pump with 1 click

Mix until 1 single homogeneous phase is obtained

Apply: mix well before each application.
1 application = 1 to 2 pump depressions

ULTRA-PERSONALISABLE PROGRAMMES

The BOOSTERS are incorporated into anti-age protocols each targeting a major sign of skin ageing: **hydration, wrinkles, firmness, blemishes and imperfections.**

SKIN PERFUSION CORRECTOR BOOSTERS

CONCERNS	HYDRATION	WRINKLES
	HYDRA-BOOSTER	TIME-BOOSTER
ACTIVE SUBSTANCE	Hyaluronic acid 2.5%	Retinol 0.3%
ADDITIONAL ACTIVE SUBSTANCES	+ PRESERVATIVE HYDRATION: Ceramide NP 0.5%	+ SOOTHING + REPULPING AGENTS: Aloe vera gel 5% Hyaluronic acid 0.5%
KEY BENEFITS	Increased hydration. Repulps the skin. ^[1]	Smooths wrinkles and fine lines. Improves the appearance and consistency of the complexion. ^[2]
APPLICATION	☀ ☾	☾
		⚠ ^[6]

[1] Clinical study in 2017 – 15 subjects, average age 40.9 years old – application of the product HYDRA-BOOSTER in the evenings every evening for three weeks. [2] Clinical study in 2017 – 12 subjects – average age 60.7 years old – application of the TIME-BOOSTER product in the evenings for 9 weeks (twice per week in the first week then three applications per week).

SKIN PERFUSION CORRECTOR BOOSTERS

FIRMNESS	BLEMISHES	IMPERFECTIONS
LIFT-BOOSTER	BRIGHT-BOOSTER	BALANCE-BOOSTER
Complex of peptides 6.5%	Acids (glycolic + phytic) 12.5%	Acids (salicylic + lactic) 4.4%
+ ANTI-OXIDANT: Resveratrol 1%	+ MELANIN BLOCKING AGENT: Hexylresorcinol 1%	+ SEBO-REGULATING AGENT: Zinc gluconate 3.5%
Improves elasticity, firmness and density of the skin. Lifting effect.^[3]	Improves brightness, consistency and quality of the skin.^[4]	Reduces imperfections. Purifies the skin. Mattifying effect.^[5]

	⚠ ^[6]	⚠ ^[6]

[3] Clinical study in 2017 - 15 subjects - average age 61.5 years old - daily application of the product LIFT-BOOSTER in the evenings for three weeks. [4] Clinical study in 2017 - 13 subjects - average age of 56.4 years old - application of the BRIGHT-BOOSTER product in the evenings for nine weeks (twice per week during the first week then three applications in the following weeks). [5] Clinical study in 2017 - 15 subjects - average age 44.9 years old - application of the BALANCE-BOOSTER product in the evenings for three weeks (alternate evenings for the first week then every week for the subsequent weeks). [6] Begin with two applications per week then increase frequency gradually depending on tolerability. TIME-BOOSTER (retinol) should be avoided by pregnant or breast-feeding women.

HYDRA-BOOSTER
for concentrated hyaluronic acid
providing 360° hydration.

HYDRATION

FORMULA INNOVATION

2.5% HYALURONIC ACID

A highly reputable active ingredient which can retain up to 1,000 times its weight in water. **HYDRA-BOOSTER** combined high molecular weight hyaluronic acid which coats the epidermis and low molecular weight hyaluronic acid for deeper hydration.

0.5% CERAMIDES

These active ingredients supplement the moisturising action of hyaluronic acid in the long term through their capacity to “retain” water and prevent its evaporation.

USE

Mornings and/or evenings before everyday care.

[1] Instrument-based study on 15 subjects. Score obtained from the cheek after three weeks. [2] Self-assessment – percentage consumer satisfaction – 15 volunteers – average age 40.9 years old – application of the HYDRA-BOOSTER product every evening for three weeks. The SKIN PERFUSION cream product can be combined in the evenings. The same cream was applied by the subject in the mornings. Results after 3 weeks.

TIME-BOOSTER
to combat wrinkles.

WRINKLES

FORMULA INNOVATION

0.3% RETINOL

A five-star anti-aging active ingredient that re-stimulates the dynamics of epidermal cells, smooths wrinkles and wakens the brightness of the complexion. Retinol also acts to stimulate collagen and elastin and through this improves skin quality.

4% "RETINOL-LIKE" GALACTO-ALPHA

For increased anti-aging activity.

0.5% HYALURONIC ACID + 5% ALOE VERA

A duo of active ingredients which provide the necessary comfort during care with retinol which can occasionally be irritant to the most sensitive skins. It also helps to repulp fine lines.

Results after six weeks.]

LIFT-BOOSTER
to lift lines and firm the skin.

FIRMNESS

FORMULA INNOVATION

6.5% COLLAGEN AND ELASTIN PEPTIDES

These peptides stimulate fibroblasts which are responsible for the natural production of collagen and elastin in the dermis and therefore help to visibly lift and firm the skin outlines.

1% RESVERATROL

This is a powerful anti-oxidant and is recognised for its ability to protect the skin from free radicals.

⁽⁶⁾ Self-assessment – percentage consumer satisfaction – 15 volunteers – average age 61.5 years old – daily application of the LIFT-BOOSTER product in the evenings for three weeks. The SKIN PERFUSION cream product can be combined in the evenings: the same cream was applied by the subjects in the morning. Results after three weeks.

BRIGHT-BOOSTER

to visibly combat pigmented blemishes
and make the complexion uniform.

DARK SPOTS

FORMULA INNOVATION

10% GLYCOLIC ACID

A highly reputable active ingredient for peelings, it stimulates cell renewal for a smoother, more uniform younger skin.

2.5% PHYTIC ACID

An ideal anti-blemish agent. This active ingredient inhibits melanin synthesis and helps to achieve a bright complexion.

1% HEXYLRESORCINOL

A potent active brightening ingredient for increased action.

The product SKIN PERFUSION cream can be combined in the evenings. The same cream was applied by the subjects in the mornings. Results after six weeks.

BALANCE-BOOSTER
to correct imperfections
and regulate excess sebum.

IMPERFECTIONS

FORMULA INNOVATION

4.4% FRUIT ACIDS

A combination of salicylic acid (BHA) and lactic acid (AHA) help to exfoliate dead cells and has is highly effective in improving skin health.

3.5% ZINC GLUCONATE

This active ingredient is recognised for its sebo-regulating properties and helps to control shine.
