GOSMOOTH®

GOLD STANDARD TECHNOLOGY
IN NON-ABLATIVE LASER RESURFACING

ETHEREA-MX[®] ACROMA-QS[®]

fractional, dual-wavelength q-switched Nd:YAG LASER

The fractional lenses are able to enhance the effect of photomechanical disruption by adding a deeper beam penetration through the skin, also promoting a relatively better overall outcome.

ETHEREA®: The Facts

tattoo removal, before & after 6 tx sessions
