4 MHz, 4.5 mm focused ultrasound beam delivers accurate power density in focal region.

MACRO FOCUSED

2 MHz, 9.0 mm focused ultrasound beam delivers higher power density in focal region.

ABOUT ULTRAFORMER

You've heard about it, now **see and feel the difference** for yourself.

ULTRAFORMER is the World's No. 1 System for ultrasound lifting, tightening and contouring. Now with 7 interchangeable cartridges that offer you another dimension in non-surgical face and body treatments.

ULTRAFORMER is widely used with over 1 million treatments performed worldwide. It has become the treatment of choice for patients who are not yet indicated or not willing to undergo surgery. This fills a huge gap in the market, and captures an audience of people from 30 years of age all the way to 80.

ULTRAFORMER is on the TGA register for non-surgical skin lifting & tightening.

FEATURES & BENEFITS

- Less discomfort associated with treatments
- Patented transducer design for more efficient energy delivery
- Faster shot and treatment speed to save time
- Backed by clinical papers

MMFU technology has been developed for treating various cancer through thermal energy from ultrasound waves. It is created in the focal zone by transducer.

FACE LIFTING

APPLICATIONS FOR FACE

Ultraformer works for face lifting, skin tightening, wrinkles, pores, V-line forming, jowl line, cheek, skin tone improvement, and overall laxity improvement.
